About me

KIRSTY BLACKWELL PHOTOGRAPHY

Photography has always been my biggest interest and so I studied it all the way through the education system. I studied Photography and Video at De Montfort University in Leicester and graduated with a First Class Honours.

My biggest passion is storytelling, through still and moving image. For me, it is all about catching those important moments and bringing them to life for you to look back on and cherish for years to come. I love being able to make you laugh and cry happy tears when you get the photo album out or replay your video.

Weddings are just an awesome day all round aren't they? As a guest I normally have a little tear rolling down my cheek and there's no difference when I am behind the camera capturing your day. Luckily the camera usually hides it! The speeches are the bit that always gets me with the mix of embarrassing stories and heartfelt messages! There is just so much love for everyone in the room and I feel totally privileged to be a part of everyone's day.

My Style

I am a complete sucker for a love story, and I feel so privileged when a couple choose me to be a part of their special day. Weddings are such a wonderful day and I love getting to meet all your friends and family full of joy and excitement for you and your partner.

My style on the day is very relaxed and unobtrusive. I will work in the background as the day unfolds making sure that you have natural images or video with just a few little moments of involvement to capture some of those must have shots. I'll be mixing in with guests, capturing the laughs, the silly moments and all the fun without anyone noticing.

I like to split up the couple portrait sessions throughout the day so we can make sure we get different lighting and venture to different areas of your wedding venue. I don't want to take you away from guests for too long but it's also a lovely opportunity to take you away for a few moments of peace together on one of the most special days of your life.

Wedding photography is about more than capturing images; it's about preserving a fleeting moment from your most cherished day. Each photograph freezes a moment in time - a stolen glance, a joyful tear, a shared laugh; transforming it into a piece of art to display in your home. These photographs become a daily reminder of the love, joy, and connection you felt, bringing you right back to your wedding day to life every time you look at them.
